Principal's Corner

Dear Logan Families,

As a federally funded, Title I-Part A school, Logan takes extra steps to get parent input on the workings of our school and to keep you informed. You likely witnessed that firsthand during our recent conference week where input was being gathered for three important documents that guide much of what we do here at Logan for your family and for your young scholars. Please find some additional information about each of the documents below. Each of these documents can be found on our Logan Website by going to the "about" tab and pulling down to "news." Paper copies are displayed in the office or can be sent home on request.

- **School Improvement Plan:** This document guides all professional development for our highly committed staff and determines how funds are spent to support young lions and their families over the course of the school year.
- **Family Engagement Plan:** This document details plans to both inform and involve families in the learning journey scholars are on.
- **School-Parent Compact:** This document details commitments made by staff, scholars and parents to partner on each lion's learning journey.

I hope that you will find some time to review these documents. They are always a work in progress, so your feedback and involvement invited at any time.

In continued partnership,

Brent A. Perdue

Principal, brentp@spokaneschools.org

Rogers AVID Visit

Logan Lions in grades 2, 4, 5, and 6 were able to visit with Students from Rogers High School's AVID program on Tuesday, November 12th. Lions learned how to stay organized in their learning for high school and college. Our Lions had many questions about what to expect in high school and preparing for college. They had a blast engaging with their high school presenters!

GU's Mend it Monday Club Sews it Up!

Last Week's Logan Family Meal saw members of Gonzaga's Mend it Monday club on hand to help repair clothing items for anyone who had the need. There was even a teddy bear that visited for a little TLC.

Pedro Helps Second Graders Prepare

Last week, volunteers from The Red Cross brought their Prepare with Pedro project to Logan. Second graders learned about disaster preparedness so that they can keep themselves and others safe. Topics included how to prevent and stay safe during a home fire, how to manage stress during emergencies and how to gain confidence in their ability to be prepared for emergencies in their home and community.

Skate Night Fun

Logan students and families enjoyed an evening of skating last week at Pattison's Roller Rink. Don't miss the next Logan Family Skate Night scheduled for January 9, 2020!
