CALL FOR RESOURCES CFR 2223-06 **PRODUCTIVITY- VIDEO COACHING PLATFORM FOR TEACHERS**

Spokane Public Schools is looking for a video coaching platform that walks teachers through self-reflection of a specific lesson. Specifically, we are looking for a product that uses AI technology to walk the teacher through the process of self-reflecting on their own.

The District expects the approved product would be in place for the start of the 2023-24 school year.

Elements Required:

- Ability to record/upload a video recorded lesson to a productivity platform
- AI technology that scaffolds the teachers “look fors” and reflection process
- Allows the teacher to create a plan of action and follow up/progress monitor the plan of action.

For other District requirements for consideration of adoption, please refer to these documents on the District Website, and return the VPAT questionnaire for electronic curriculum:
