Welcome Back Westview Wildcats!!!

It was so wonderful to see our families during Launch Conferences and to get back into our routine this first week! This is the start of my 11th year at Westview & 15th year in SPS. I am a proud GU grad (Go Zags!) and became a National Boards Certified School Counselor in 2018. I deliver a comprehensive school counseling program to address the needs of our students – promoting a safe and respectful school climate. My lessons are designed to help ALL students develop skills through the academic, career, and personal/social domains (K – 5th).

Counselor Referrals

I also work with students to provide counseling interventions 1:1 & in small groups. My counseling approach is solution-focused and emphasizes helping students gain insight to work through thoughts and behaviors that act as barriers to success – providing an instillation of hope. If you would like to refer your child(ren), please scan the link below or contact me directly.

September Guidance Lessons:

Be Kind – Respect
