

4.24.2024

TO: Parents, Guardians & Staff Members of School Sacajawea Middle School

FROM: Tracey Leyde

SUBJECT: HERBICIDE/FERTILIZER APPLICATION ALERT

This is to inform you that **CLEARWATER SUMMIT GROUP** will apply liquid herbicide (**Gallery SC and Dimension 2EW**) on our shrub beds on **FRIDAY 4.26.2024**. This is part of maintenance warranty on the new landscape.

Also, a broadleaf herbicide will be applied to all turf areas and a weed and grass control spray will be applied to the shrub beds and mowing strips at Sacajawea Middle School on **Friday, May 3rd and Saturday May 4th**. A variation of this schedule may occur as a result of inclement weather. This spray is to control unwanted weeds in the shrub beds, around the trees, along the street curb areas and in turf areas. Our school has taken steps to keep school children away from the tree and shrub bed areas for 24 hours. We would like to ask that you and your children refrain from using these same areas during that period of time.

We ask that all students and staff stay off these areas until Friday afternoon. This schedule may change due to wet or windy weather conditions. Thank you!
