

Welcome Trailblazers!

Dear Mullan Road Families,

I feel honored to be the principal of Mullan Road and hope to continue serving the Mullan Road community for many years. Throughout my leadership experiences, I have realized that the best leaders never lose sight of the potential in others. They believe in the brilliance and ability of everyone. When students achieve success in school, they begin to internalize the idea that they can achieve success in other aspects of their lives as well. I believe that the education of children requires a collaborative effort between teachers, students, parents, support staff, and administrators. All of these people must work together for students to attain success.

The staff here at Mullan Road are very excited to get to know you and your child better, and we look forward to all we will accomplish together. In the first few weeks of school we will work to develop creative ways to connect virtually with your child. As well as establish an engaging classroom environment to meet the needs of all students. We know how important it is to feel assured that your child is getting a quality education from passionate teachers and staff in a safe environment.

Each month we will have a social and emotion focus. This month is **COURAGE!** Thank you for your courage, service, and partnership during this difficult time.

New Staff: I am thrilled that we were able to hire three outstanding classroom teachers to the Mullan Road staff. Marcoantonio Caballero-Castillo comes from Logan Elementary and will be teaching our 2nd/3rd grade combination classroom. Melissa Percy comes from Roosevelt Elementary and will be teaching 3rd grade and Amber Guzman comes from Stevens Elementary and will be teaching kindergarten. I have three principals upset with us for stealing away their outstanding teachers. We are very blessed to have them.

Thank you for taking the time to secure a computer for your child. We have distributed almost 700 computers. You still have time to sign up for a computer. Additionally, we will have a school supply and classroom materials distribution next week. We are currently gathering supplies and building kits. We will be communicating dates and times for family materials pickup soon.

Mullan Road has a professional, dedicated, and caring staff. We believe that the best education comes from a close partnership between families and the school community, so we encourage you to get actively involved at Mullan Road and the Mullan Road PTG.

Sincerely,

A handwritten signature in black ink that reads "Matt Beal". The signature is written in a cursive, slightly slanted style.

Matt Beal
Principal
