

## Extracurricular Task Force Sub Committee

### Meeting #6

**Date:** July 14, 2020

**Committee:** Extracurricular

**Attendee Names:** Whitney Bowerman, Aaron Breck, Keith Eggleston, Bruce Hafferkamp, Dave Hughes, Shawn Jordan, Bryan Schutz, Stephanie Splater, Stacey Ward

**Meeting Notes:** Approval of 7/7/20 Minutes – Minutes Approved

Revisit SPS Key/Guiding Questions:

- (Included in current planning document) What are the WIAA Guidelines for Fall? How do those apply to Spokane County as per other state regulations?
  - (Ongoing) What facility impacts should be expected? (different schedules, different spacing needed)
  - (Included in current planning document) What hygiene/cleaning details need to be addressed?
  - (Ongoing) What will the communication plan be?
  - (See update below) How will we train coaches/advisors on guidelines/expectations/safety protocols?
  - (Ongoing) Will the workload conditions of the staff be impacted?
  - (Ongoing) Will there be a budgetary impact around equipment and cleaning?
  - (Ongoing- some details included in current planning document) Travel?
    - Local GSL events
    - Out of area GSL events (Pullman and Clarkston)
    - Out of area non-league events
- 
- New Updated WIAA information to come out 7/21
    - Would the WIAA consider flipping seasons? Concern around spring sports potentially losing two seasons, coaching and athlete considerations who could multiple, etc
  - How would coaches be paid if we don't end up having a competitive season?
    - Is prorated payment a possibility? For example 75% pay if only practicing and 100% if game weeks
    - Wait until after WIAA makes the announcement to see what direction we might be headed.
  - Do we want coaches to review the Action Plan?

- Wait until after WIAA makes the announcement to see what direction we might be headed.
- We need to keep athletes connected, even if it's not a traditional competitive sports season experience.

Review of new Phased SPS Athletics Action Plan:

- Hand Washing and Sanitizing- options for both based on logistics  
-Brainstormed how that could look in Phase 3 with 50 students in a space. Options to spread tables/stations out, create procedures that work at each individual site and still within guidelines- brainstorm with coaches and ADs
- Health Screening section: Are students required to tell us they test positive for COVID  
If a kid tests positive will we all need to quarantine for 14 days?
  - Becky Doughty will be able to answer

From Keith Eggleston, Athletic Trainer: If anyone has questions for other HS's outside of our area to find out how they handle things (sanitizing stations, spacing, tracking, communication, equipment/supplies, etc) please let me know and I'll reach out to ATs in that area. Some have figured out solutions that work like no-touch water stations, as well as found out a lot of things that sounded good initially but didn't work well in practice. Not all schools in SPS are same so may need different ideas.

- It would be good to hear some examples rather than reinventing the wheel. I assume all ADs and ATs will work closely to develop the plan at their individual schools

**Training, Safety, Nursing, Facilities update**

- Still working on mockup of training and accountability pieces- HR will let us know then the general COVID-19 training is available and will work with us to do Athletics-Specific trainings

Next Meeting 7/23/2020- time to be determined
