

Extracurricular Task Force Sub Committee

Meeting #5

7/7/20, 11am-12pm via Teams

Date: 7/7/2020

Committee: Extracurricular

Attendee Names: Whitney Bowerman, Aaron Breck, Bruce Hafferkamp, Dave Hughes, Erik Johnson, Shawn Jordan, Bryan Schutz, Stephanie Splater, Stacey Ward

Meeting Notes: Approval of 6/26 Minutes – Minutes Approved

Reference updated Action Plan - review any changes- (ie. trainings- SafeSchools etc)

- We need time to train coaches on protocols
- Accuracy of the touchless thermometers... Keith suggested in a previous email that perhaps another method may be more accurate- check with Becky in Nursing
- WIAA sports specific protocols will be used for individualized safety plans

Current position on Summer Activities

- Phase 2- hold on school-sponsored summer activities
- We should be looking at fall expectations so we can roll these out to coaches
- Consideration: Football games can occur at phase 4, Volleyball games at phase 3, XC meets at phase 2, etc. (further discussion needed on XC)
- Coaches need step by step procedure of what is considered "cleaning"
- Make sure coaches are gloved-up for exposure to chemicals
- All athletic equipment should be cleaned

What might we propose if we are still in Phase 2 in mid-August (Aug 19)? Phase 3?

- Ongoing discussion

Questions and Wonderings you currently have:

- At what point in the fall do we not allow sports to start?
- If we start volleyball in the fall how many kids can we have indoors?
- If we haven't hit phase 4 by a certain date at what point would the season be cancelled?
- How much energy do we put into screening students?
- In cleaning, does this include the floor? If so would this be custodial or the coaches responsibility?
- Would we allow kids to cross sports once they join?
- Could Becky/Phil expand on cleaning and expectations?
- Can athletes clean their own equipment?
- If students can't do football what can they do?
- What is fall going to look like?

Next Meeting time (July 14, 2020, 11am-12pm via Teams)
