Principal’s Corner

Dear Logan Families and Community,

I am excited to announce that our Logan Family Meal will be continuing every Tuesday evening this year. This meal is a partnership between our school and Campus Kitchen at Gonzaga University. Every Tuesday evening, Campus Kitchen will provide a free meal for anyone in the Logan neighborhood. Dinner will be served each week between 5:00 and 6:00 PM in our multi-purpose room.

And beginning this week, the menu will be posted each Tuesday afternoon on Logan’s Facebook Page. So check out the page after 4:00, to ensure we have had enough time to post it, and come on in!

Why not make the Logan Family Meal a weekly habit, and enjoy a dinner that you do not have to prepare? For more information, please see the advertisement in today’s edition of the Lion’s Roar.

See you there!

Brent A. Perdue
Principal, brentp@spokaneschools.org

Donuts in the Den Replaces Dining In the Den for 2019-2020

For the past few years, scholars have been nominated each week to “Dine in the Lion’s Den.” This saw them have a special lunch celebration in the library during the lunch period. With Logan’s change to a 30 minute recess followed by lunch with their teachers, Dining in the Den is no longer an option.

So Logan has moved to Donuts in the Den, which will take place each Tuesday morning after announcements. Nominated scholars will be called down to the library for a small donut with one or more of the principals. They will receive a special pencil and have their nomination certificate hung on the large bulletin board in the cafeteria. After the certificates are displayed for a week, the students will be able to take the certificate home to share with their family.

Enjoy the picture from the first Donuts in the Den celebration last week!
Cross country

Nearly 80 Logan athletes competed in last week’s cross-country race. Students from across northeast Spokane took part in the meet. Logan Lions ran hard, cheered harder and represented Logan well! Enjoy a few pictures from the event and see even more pictures on Logan’s Facebook page.

Toothsavers Program Continues!

Last week saw 58 Logan students receive a dental cleaning and exam on site as part of Logan’s Toothsavers program. That is the highest rate of participation in Spokane County! Logan wishes to say thank you to Toothsavers for providing this important service to children of the Logan Neighborhood. They will be returning March 25 and 26 of 2020 for their next round of exams and cleanings.

TOOTHSAVERS of WASHINGTON makes it easy for families to have a positive dental experience and values your student’s time in class. Bringing these services to your school has many benefits. Dental decay is the leading cause for kids missing school than any other disease. Poor oral health leads to poor learning in school. No Child is Turned Away if Unable to Pay!

Lion’s Roar Goes Digital

Paper copies of the Lion’s Roar will no longer be sent home with scholars. A new edition will continue to be published each Thursday but will now be accessed through Peachjar. You will be notified each time a new edition is posted if the school has your email on file. Please contact the office at 354.3434 to update your email address.
