

# EXPLORING COMPUTER SCIENCE

FUN

Teacher: Mrs. Underhill

*\*\*All of the work is done in the computer lab so NO homework.\*\**

## Why You Might Be Interested:

- Open to all students in grades 9-12, even if you have never used a computer!
- Learn various computer languages such as HTML/CSS, Python, Robotics, and Scratch.
- Enjoy a hands-on, project-based class.
- Have an opportunity to be creative and improve your problem solving skills!
- Fulfill your Career and Technical Education (CTE) graduation requirement or an elective credit.
- Perfect background to take AP Computer Science and CS Principles, where you can earn college credit in high school.
- Feel free to join our CyberPatriots Club and compete against teams from across the country in cyber security.

Remember, computer skills are an important part of everything we do no matter where your career takes you.

- **Prerequisite?** Great attitude and a desire to learn various methods of coding/programming! 😊
- **What to do?** Easy – **Sign up for Exploring Computer Science.** If you have questions, email Mrs. Underhill at [lisau@spokaneschools.org](mailto:lisau@spokaneschools.org)
