

March 25, 2020

Hello!

We hope that you are all healthy and continuing to learn!

Many of you have logged into MOBYMAX, which is great! Please continue doing this along with the packet work we sent home. Also, when you first log into CLEVER (on the district web site, as you get to where Mobymax shows)...there will be NEW teacher pages, and we have both added to our teacher pages. If you click on our teacher pages (RJohnson or NBrown) you'll find more resources and ideas to keep you learning & motivated! We will continue to add as appropriate to these pages.

Along with these, you can continue your work in both Social Studies and Science by going to YouTube and putting in these searches (these would be the next topics in our curriculum):

Social Studies: The American Revolution for kids; The Lewis and Clark Expedition for kids; The Western Movement or Western Expansion for kids; The Civil War for kids.

Science: Geology for kids; The Earth for kids; Rocks for kids; Volcanoes for kids; Mt. St. Helens for kids.

There are also suggestions and resources listed on the district webpage for your convenience:
Spokaneschools.org

Please feel free to email either one of us if you have questions. Miss seeing everyone & hope you are all doing well!

Rebecca Johnson – RebeccaJ@spokaneschools.org

Neal Brown - NealB@spokaneschools.org
