

Weekly Assignments

Week of May 11, 2020

Mr. Duchow's 8th Grade

For Unit 8 Lesson 13 – Khan Academy

Extra Practice: Square roots & Cube Roots

Equations with square roots & cube roots

Equations with Square roots, decimals and fractions

Unit 8 quiz 3

For Unit 8 Lesson 14 – Khan Academy

Decimal Representations of Rational Numbers

Converting a fraction to a repeating decimal – video

Writing Fractions as repeating decimals – problems

Writing fractions as repeating decimals review - Article

I will also post a Problem Solving assignment to Micro Soft Teams on Tuesday.

Remember all these assignments are due this week. If you have old work that is not done in Khan Academy you should go in order. Please ignore the due dates in Khan Academy, they are well into the future so that I might assign them to students who join the class late.
