

Week 5
May 25 – 29

Mr. Dan's exciting world of Life Science Online

Unit 7: Heredity: Chapter 10.1 Growth and Cell Reproduction

Monday: No School

Tuesday: Read Chapter 10.1 and turn-in your **completed** Notes

- *I have done these notes for you. You just have to read the chapter and fill in the blanks. Very easy! 10 Points*

Complete the 10.1 Section Review Quiz in Teams

- *You may use the LSN_Ebook, and your Guided Notes for the best possible grade. 17 Points*

(Mandatory Online Meeting at 11:30-12:00)

- Bring your questions
- Bring your concerns
- Bring your Kahoot! Gameface
- Remember to turn in your Kahoots to MrMillerMan

Wednesday: Review the 10.1 PowerPoint in Teams and turn-in your Notes

- *You may take your own notes or use any of the forms I have attached to your assignment. Then you may upload, take a picture or scan your notes before attaching it to the assignment and turning it in. You may use your notes from Monday, but add any new information found in the PowerPoint to receive full credit. 10 Points*

Thursday: Review 10.1 Chapter Vocabulary

- *There are several different ways to do this: (1) You may create your own document using Word and typing in the vocabulary words and definitions and then add the file to your assignment before you turn it in, (2) or you may use the form I have attached and just type the definitions in before you add the file to your assignment and turn it in, (3) or you can just write the assignments down on a piece of paper and take a picture or scan it in before adding the image to your assignment and turning it in. 10 Points*

Friday: Complete the Chapter 10.1 quiz in Teams

- *You may use all of your notes for the best possible grade. 16 Points*
