

# Scope and Sequence

## Week #7

### Unit 7: Chapter 11.2 Predicating Heredity

**Monday:** Read Chapter 11.2 and turn-in your **completed** Notes

- *I have done these notes for you. You just have to read the chapter and fill in the blanks. Very easy! 10 Points*

**Tuesday:** Complete the 11.2 Section Review Quiz in Teams

- *You may use the LSN\_Ebook, and your Guided Notes for the best possible grade. 8 Points*

**(Mandatory Online Meeting at 11:30-12:00)**

**Wednesday:** Review the 11.2 PowerPoint in Teams and turn-in your Notes

- *You may take your own notes or use any of the forms I have attached to your assignment. Then you may upload, take a picture or scan your notes before attaching it to the assignment and turning it in. You may use your notes from Monday, but add any new information found in the PowerPoint to receive full credit. 10 Points*

**Thursday:** Review 11.2 Chapter Vocabulary

- *There are several different ways to do this: (1) You may create your own document using Word and typing in the vocabulary words and definitions and then add the file to your assignment before you turn it in, (2) or you may use the form I have attached and just type the definitions in before you add the file to your assignment and turn it in, (3) or you can just write the assignments down on a piece of paper and take a picture or scan it in before adding the image to your assignment and turning it in. 10 Points*

**Friday:** Complete the Chapter 11.2 quiz in Teams

- *You may use all of your notes for the best possible grade. 21 Points*

## Week #8

- *Note: Week 8 will be posted early to give time for students to catch up on missing work. All work is due June 19<sup>th</sup>.*

### Unit 7: Heredity: Chapter 11.3 Other Patterns of Inheritance
