

Week of: 6/1 – 6/5
MS1 Learning Guide: Gellerson

Learning goals for this week include:

1. I can calculate the surface area of right prisms.
2. I can analyze contextual problems and determine whether to find surface area or volume.

Expectations:

1. Students will login to Teams to get their weekly learning plans (Click on Files – May 26th).
2. Students will complete work on Khan Academy and Teams, using the assigned videos and practice problems to solidify their understanding of the material.
3. Students will take advantage of the weekly Teams meetings to ask questions and get help with their assigned work.
4. Students should have weekly assignments completed and submitted by the end of the day on Sundays. Late work is always accepted.
5. Students should be working out math problems on a piece of paper or whiteboard. Many of these problems require you to work them out!
