

ELA 7 Accelerated Mrs. Mattes

Weekly Scope and Sequence for April 27- May 1

LEARNING TARGET I can relate the concept of choices and consequences to the lives of prominent leaders whose choices have made positive impacts on society and the world.

Big idea: In Unit 3, we have been focused on the theme of choices and consequences and how one person's choices can impact the lives of others. You have read about Nelson Mandela, a leader whose choices changed world history. Last week you began researching a famous leader of your choice and creating a PowerPoint Presentation. This week you will finish your presentation and research notes and submit the work through TEAMS or email to me.
