

Niemi's 7th Grade Science

5/26 – 6/1

Tuesday, May 26 th	Wednesday, May 27 th	Thursday, May 28 th	Friday, May 29 th	Monday, June 1 st
<p>Today, can be used as a catch-up day. Please use your time to work on any assignments you may be behind on. If you're done with everything ~ YAY, you don't have to worry about science work today! Or you can work on assignments for the week.</p> <p>Virtual class meeting on Microsoft Teams at 11:30 – 12:00 pm</p>	<p>Today, you will watch a short video on YouTube by Crash Course called: The Heart. (The underlined title is a link to the video) Once you have watched the video, there is a worksheet in the "Assignments" tab with the title "The Heart". Please make sure to turn in the worksheet as soon as you have completed it.</p>	<p>Today, you are going to play a game about the Circulatory System called "Whodunnit". I have created a video of myself starting the game to give you instructions on how to do it exactly (this video is in the "Files" tab if you need to refer to it). When you have figured out whodunnit, please make sure that you share with me the final slide of the PowerPoint so that I can see your answer, or you can email me your answer.</p>	<p>Today, I want you to complete the worksheet "Circulatory System Color". There is not actually a page to color (because I don't want you to worry about printing the page out), but please answer the twelve questions and turn in once completed.</p>	<p>Today, you will go through a PowerPoint on "The Lymphatic System". I have included a voice recording on each slide (you're welcome 😊), so you may need to click the "next" button a second time to hear me. You can find the PowerPoint and the "Lymphatic System Review" worksheet can be found in the "Assignments" tab (it can also be found in the "Files" tab). Please make sure to turn in the assignment when completed.</p>
