

Niemi's 7th Grade Science

4/28 – 5/4

Tuesday, April 28 th	Wednesday, April 29 th	Thursday, April 30 th	Friday, May 1 st	Monday, May the 4 th Be with You
<p>This week you are going to review a bit of the book work that I gave you right before quarantine. I want you will watch a short video by Crash Course called: Taxonomy. (The underlined title is a link to the video) Once you have watched the video, download the worksheet (from the folder named with this week's date range) with the same title and answer the questions. To show you have answered the questions, you can "highlight" the answer you believe is correct. When saving the worksheet, save with your last name before the original title (Ex. Niemi Taxonomy). Email me your worksheet when completed.</p>	<p>Today, you will watch a short video by Crash Course called: Fungi. (The underlined title is a link to the video) Once you have watched the video, download the worksheet with the same title and answer the questions. To show you have answered the questions, you can "highlight" the answer you believe is correct. When saving the worksheet, save with your last name before the original title (Ex. Niemi Fungi). Email me your worksheet when completed.</p>	<p>Today, you will watch a short video by Crash Course called: Vascular Plants. (The underlined title is a link to the video) Once you have watched the video, download the worksheet with the same title and answer the questions. To show you have answered the questions, you can "highlight" the answer you believe is correct. When saving the worksheet, save with your last name before the original title (Ex. Niemi Vascular Plants). Email me your worksheet when completed.</p>	<p>Today, you will watch a short video by Crash Course called: Complex Animals (The underlined title is a link to the video) Once you have watched the video, download the worksheet with the same title and answer the questions. To show you have answered the questions, you can "highlight" the answer you believe is correct. When saving the worksheet, save with your last name before the original title (Ex. Niemi Complex Animals). Email me your worksheet when completed.</p>	<p>Today, you will watch a short video by Crash Course called: Chordates. (The underlined title is a link to the video) Once you have watched the video, download the worksheet with the same title and answer the questions. To show you have answered the questions, you can "highlight" the answer you believe is correct. When saving the worksheet, save with your last name before the original title (Ex. Niemi Chordates). Email me your worksheet when completed.</p>
