

June 1 - 18
Accelerated Math Learning Guide

Learning goals for this month include:

1. Linear Equations – I can solve an equation with variables on both sides of the equal sign.
2. Systems of Equations – I can find a solution to a system of linear equations.
3. Pythagorean Theorem – I can use the Pythagorean Theorem to find missing information about a triangle.

Expectations:

1. Students will complete work on Khan Academy, using the assigned videos and practice problems to solidify their understanding of the material.
2. Students will take advantage of the weekly Teams meetings to ask questions and get help with their assigned work.
3. Students should have all assignments completed and submitted by the end of the day on June 18th.
4. Students should be working out math problems on a piece of paper or whiteboard. Many of these problems require you to work them out!
