

7th grade Life Science

May 11^h – May 15th, 2020

Teacher Information

Mr. McHenry shaunm@spokaneschools.org

Weekly Message

Thank you to everyone who is still getting their work done! A suggestion that might help is to set your own routine and schedule. Pick a time every day to work on each class and set an alarm to remind you. Eventually you will form the habit and getting your schoolwork done won't take any extra effort.

Virtual Meeting

Tuesdays from 11:30-12:00

These meetings are primarily geared towards answering questions.

Student Expectations

New learning and assignments: Students should spend at least 20 minutes working through the assigned Science lessons on Moby Max each school day. It is *highly recommended* to take notes while going through the lessons. The plan is to use Moby Max for the remainder of the year to assign lessons that match up with the content and standards that we have not covered yet. Students can access Moby Max through their [Clever](#) portal on www.spokaneschools.org.

Communication: Students should check the announcements in Teams and their school email every school day. Students can email me if they have any questions and they can also bring questions to the virtual meeting.

Grading: Moby Max tracks the amount of time students spend working on the assigned lessons. Points will be given for spending at least 20 minutes each school day on the assigned lessons. Student scores on the lessons are also reported in Moby Max and will be recorded in the grade book. Moby Max is currently set to reassign a lesson automatically if a student scores below 70%.

***** Students not doing any work will earn an Incomplete for the semester.*****

You can log into Moby Max and work at any time to complete the work.

Scope and Sequence for the week (The order in Moby Max is sometimes different. Continue to work through the lessons in the order that they show up)

1. Complete Animals, Part 1 (from 2 weeks ago)
2. Complete Lesson Test: Animals, Part 1 (from 2 weeks ago)
3. Complete Animals, Part 2 (from last week)
4. Complete Lesson Test: Animals, Part 2 (from last week)
5. Start on Life on Earth
6. Complete Life on Earth Test

Please email me if you have any questions and remember to get outside and get some fresh air.
