Daily Progress Chart for Causes of World War I Essay

Research Task	Teacher's Initials
I have chosen to research the following cause of World War I: Militarism    Nationalism    Alliances    Imperialism	
I found 4 sources for this project. The sources have information that is: relevant (useful), at an appropriate level of difficulty , and from a credible source (not another student's research).	
Two of my sources are secondary sources (print articles) and two are primary sources (map, photograph, poster, song, poem, etc.)	
I did a close reading of my sources and highlighted relevant information.	
I recorded information from my reading in an organizer for notes.	
I cited my sources in an annotated works cited list. For each source I: provided an MLA citation, wrote a summary and explained its usefulness.	
I wrote a body paragraph explaining how my topic worked to cause World War I.	
I worked with my group to write an introduction and conclusion for the essay.
