No After School Program!

Sometimes the slide back into the routine of the school year is effortless. Sometimes the mountain of tasks in the daily routine is overwhelming. This year I am finding I need to build my parenting stamina to remember the lunches, permission slips, after school activities and commitments, and which days are early release for SHOP and which ones are not. I know that after a few weeks it will be a well-oiled machine again but for now, I feel like I am drowning a bit. I was reminded today that Montessori children are supposed to be part of these responsibilities and commitments and my children do a fair share of the work especially since we live on the farm. However, I do think I can add them into the schedule of the routine and find where they can offer help or new ideas. Just being able to say out loud I need help with it might motivate them to come up with a plan. I will keep you posted. In the meantime, here's to all of you trying to keep it together at the beginning of the year! We are in it together!!! -Shannon

### **Attitude of Gratitude**

- Thank you, Katie Storo and Stephanie Hughes, for cleaning and organizing the CoMP room!!!!
- Thank you, Kindergarten parents, for letting go this week! It is so hard, and I will assure you they are all smiles most of the day once you leave!
- Thank you, families, for remembering we need two pairs of shoes at Montessori... one pair that stays here and are inside only (can be pe shoes) and one pair that goes outside. This keeps our floors clean since we spend a lot of time on the floors in our classrooms!
