Child's Journey 6-8

Saturday- Child's Journey

9-1

After such an amazing week I thought I should share moments of gratitude!

- All the amazing ways these Montessori materials inspire and delight knowledge and curiosity. Ask Ms. Chris and her students what they discovered this week!
 - Kids say things like, *"this is so hard, but so fun!"*
 - All kids are our kids! Volunteers work with every child!
 - Our music teacher composes six different mash ups of multiple songs and teaches the ukulele to inspire upper elementary children to explore and love music!
 - **We go on nearly 200 going outs each year!**
 - Teachers connect with community partners, universities and agencies to bridge our classrooms with the world!
 - Teachers know many small but important details about each child and how to spark their interest and keep them connected to the classroom community!
 - Parents put in so many hours supporting our school without a specific requirement of hours but with the expectation that we can't do it without you!
 - **Everyone asks, "how are you? What can I do to help? What do you need?"**
- Shannon**

Attitude of Gratitude

- **A huge thank you to the many, many volunteers and contributors, planners, cleaners, and all the parts of the team that led to our auction being such a huge success! We at SPM are so grateful for all the ways you support and connect with us to continue the Montessori magic in Spokane!**
