

Providence Medical Assistant Apprentice Program

Building healthcare careers in Spokane and Stevens counties

In partnership with Washington Association for Community Health, Newtech Skills Center, and Spokane Valley Tech, Providence is developing career opportunities for motivated students in a variety of healthcare roles.

The Medical Assistant Apprentice Program combines work experience with educational support and clinical training:

- Fast track to a fulfilling, well-paid career in health care
- Training and education at 20 locations in Spokane and Stevens counties
- Education coach and on-site mentor
- Full-time, paid position while learning
- Generous, low-cost benefits
- Placement with Providence as a Certified Medical Assistant after passing the National Healthcareer Association (NHA) exam
- Ongoing career development with Providence's education reimbursement program, up to \$5,250 per year.

"One year, that's all it took to change me from the typical 18-year-old girl, freshly graduating from high school, unsure of what the future held, to a Certified Medical Assistant with a career in the field I love. I have zero school debt, a whole new look on life, and a giant team of people who never doubted me."

Alexandrea "Mo" Woods
– July 2018 MA apprentice
Spokane Valley Tech
