Spokane Public Schools
excellence for everyone

October 15, 2020

Dear New School Applicant:

It is with great pleasure that I present Spokane Public Schools' Application for New Charter Schools. Each year, we release an Application for New Charter Schools to share detailed information about our District's plans, priorities, and goals. Through this application, Spokane Public Schools (SPS) is seeking motivated and targeted groups – including educators, parents, teachers, and community leaders – with the drive, experience, and commitment to start new, high-performing charter schools in our neighborhoods.

As part of our strategic plan, we have clear goals to dramatically increase student achievement, ensure that all students are achieving a year or more of growth, and to add a number of new choice options to our school district offerings. Therefore, we are inviting you to be an active partner by submitting an application for a new quality charter school.

Spokane Public Schools is committed to working collaboratively with potential leaders, school applicant teams, national organizations, local communities, and all school stakeholders to expand the number of high-performing schools for our families. In our continuing effort to ensure that our portfolio of schools is aligned with the needs of the district and its various communities we have identified priority areas for new charter schools. While all proposals will be expected to meet the standards for approval, the district strongly encourages teams to submit proposals that meet one or more of the following characteristics:

- Proposals from high-performing, experienced operators
- Proposals for priority school models
- Proposals that meet the needs of targeted communities within Spokane Public Schools:

All Spokane Public Schools-authorized charter schools seek to increase learning opportunities for all students, with special emphasis on expanded learning experiences for students who are at-risk of academic failure. Among our priorities are schools with key design elements that specifically focus on the unique needs of particular student populations: including English language learners; students receiving special education services, and overaged and undercredited students.

Thank you for your interest in this critical part of our effort to ensure all Spokane students receive a high-quality education. I look forward to working with you.

Sincerely,

Dr. Adam Swinyard

Superintendent

Jerrall Haynes

President Spokane School Board

Spokane Public Schools Mission, Commitment, and Strategic Vision.

SPS Mission:

To develop each student's talents and skills to their full potential through high standards, rigorous academics, real-life applications, and supportive relationships.

Our Commitment:

Spokane Public Schools believes every student in Spokane should have access to an excellent education that meets their individual needs. We are committed to improving and increasing opportunities for students in Spokane by improving our existing schools and forming new schools to address our students' needs.

We welcome applicants to submit proposals for new schools that will serve the community needs outlined in this application. We are looking for proven, research-based models that will offer rigorous curriculum, strong relationships, and innovative approaches to education. Our expectation is that applicants will propose school models that will help us meet our bold district-wide goal of T-2-4; Spokane is committed to changing the finishing line and creating a school system that will prepare our diverse student body for post-secondary success (T for technical pursuits; 2 for two-year post-secondary pursuits; and 4 for four-year post-secondary pursuits) and beyond.

Through this process, we hope to build on the success of our current schools, leaders, and educators by adding additional, high-performing schools for our students. Together, our existing schools and new schools will help us capitalize on our commitment to ensuring that all students in Spokane achieve academically and gain the knowledge and skills necessary to become contributing citizens in our diverse society.

Strategic Vision for Becoming a Charter Authorizer:

During the 2012-13 school year, the Spokane Public Schools board of directors and the superintendent engaged the community in a listening and learning tour as part of the development of a new strategic plan. (<http://www.spokaneschools.org/Page/24474>). One of the clear desires from the community was for more choice options in our school district. With the passage of Initiative 1240, Washington voters added one more tool to the possible methods for school districts to provide these choice options to our students. Spokane applied and was the first district granted authorizer status in the state of Washington. Thus far we have approved two charter schools who are currently operating

within our district.

As part of being an approved authorizer in the state of Washington, Spokane Public Schools commits to evaluating any and all applications that are received through this application process. Even though Spokane is the second largest school district in the state of Washington and has the capacity for additional choice and options programs, the board of directors also recognizes that we have a finite capacity for the number of options that we can realistically support through enrollment and community demand. Therefore, as part of our final selection process, the board of directors reserves the right to give preference to applications that meet the following three characteristics as we work diligently to expand our portfolio of options to the families of our school.

1) Experienced operators:

Experienced operators: As the district seeks successful models, it is looking to see replications of successful school and student support concepts. Organizations with a strong track record of success in driving student learning, support, and achievement are encouraged to submit an application.

2) Priority School Models

Priority School Models: SPS is actively developing a comprehensive and coordinated system of school options and services for students. Examples of SPS's district portfolio includes the following:

- Project based & Montessori, Workforce Development, Core Knowledge, Parent Co-ops, HS Stem, MS Stem, Blended and Personalized Learning, International Baccalaureate, Language Immersion and Highly Capable.

While SPS is pleased with the progress that has been made to better serve the needs of our students, there are still areas in which we would be interested in potential charter school options. For example, charter schools that offer an extended school day and/or school year, or that intentionally serve the unique needs of typically under-served students (special education, high poverty, ELL) would be received with high interest from our district.

3) Priority Regional Needs for New Schools

Priority Regional Needs for New Schools:

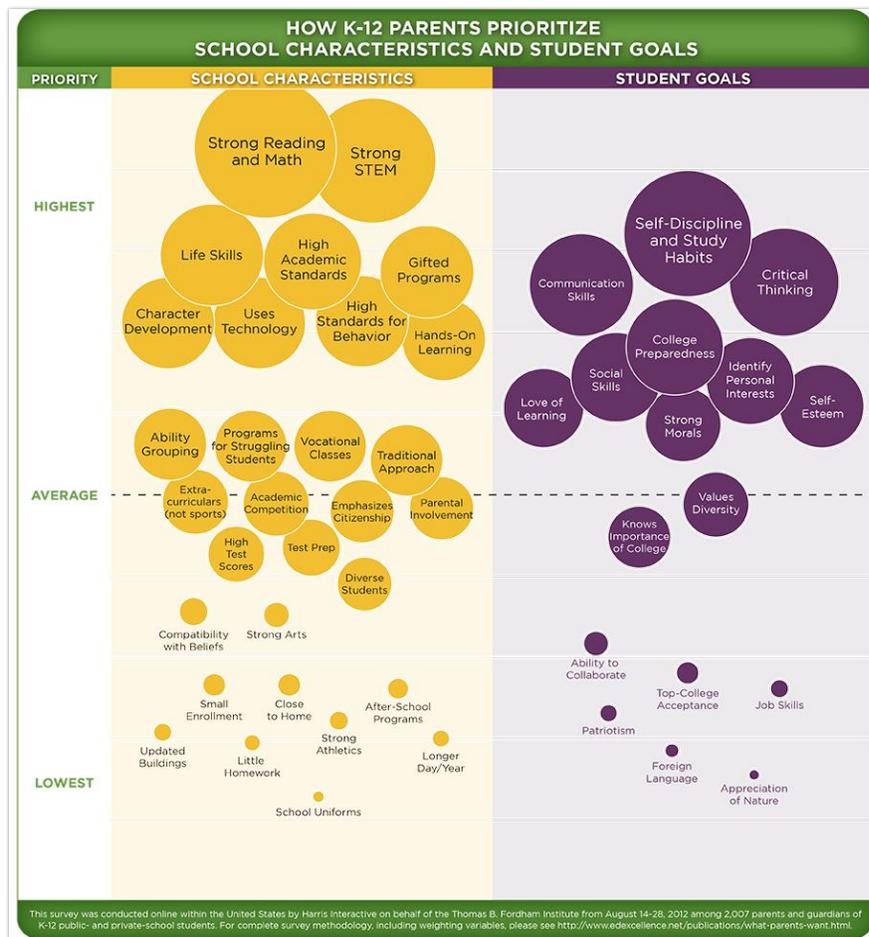

The district encourages the submission of proposals that help meet the needs of specific communities within SPS including the alleviation of overcrowding and the expansion of option schools to the south side of Spokane. Any potential charter applicants should be aware of the desire for additional school choice in the areas of our district not already served (e.g. the southern boundaries of our district).

Evaluating the needs of our students

In evaluating the needs of our students and desires of our parents, we use a study put forth by the Fordham Institute to help guide the development of our portfolio. It will be helpful for any potential charter authorizer to review this study and also investigate the options that currently exist within SPS.

<http://www.edexcellence.net/publications/what-parents-want.html>.

The following graphic outlines characteristics and goals that parents prioritized in the study and provides SPS guidance when considering both new charter schools and district K-12 option school proposals.

Applicants

We encourage all potential applicants to follow the criteria as outlined in the attached document as

you prepare your materials and to read our charter authorization application that was submitted to the state board of education for additional information about our strategic vision for becoming a charter authorizer. As part of being an approved authorizer in the state of Washington, Spokane Public Schools commits to evaluating any and all applications that are received through this application process and only applications that meet the standard will receive final approval. However, the district will prioritize the approval of those applications that best meet the needs of SPS (as well as meeting the standard for approval). The priority areas are listed on pages 4-5.

Detailed instructions for submission as well as evaluation criteria that the board of directors will be using have been provided in this document and on the website. We look forward to thoughtfully reviewing all applications that are received and thank you for your interest in Spokane Public Schools.

Guidelines for Submission

Opening a new charter school that is prepared to be successful on day one requires a tremendous amount of thought, energy, planning, and skill on the part of the founding team. This application process seeks to gain information that will allow the District to consider and determine if the proposal presents a school that is sufficiently well planned and researched – and that it not only has a compelling and rigorous academic model but that it is also fiscally and operationally sound. The application also seeks information that will allow the District to assess the capacity of the founding team to implement the proposed plan.

In order for a thorough and rigorous review to occur, all applicants must respond to all questions and requests for information contained in this application. Failure to address all questions may result in the application being deemed incomplete and ineligible for review. Additionally, applicants must reference the Evaluation Rubric when preparing their proposals to ensure that the responses address all of the evaluation criteria. For information on how approved schools will be evaluated once they have opened, applicants should reference Spokane Public Schools performance framework which will be available on the district website.

In addition to following the application process and referencing the evaluation criteria, we strongly encourage potential applicants to reference the Performance Framework on the district web page. This Performance Framework will give potential applicants the draft criteria by which charter schools will be evaluated. This should be tremendously helpful in determining an instructional program that will be successful in meeting these expectations.

In order to effectively plan for screening our applications, an applicant must submit a nonbinding notice of intent. An applicant may not file a charter school application in a calendar year unless it has filed timely notice of intent as provided herein.

Applicants are also strongly encouraged to be familiar with the legal requirements for charter schools as set forth in Chapter 28A.710 RCW and Chapter 180-19 WAC.

All application materials must be submitted no later than **5:00 PM PST** on **March 26, 2021**. All initial applications must be submitted electronically and must be uploaded to Charter Tools by the deadline. All applicants will be eligible to participate in Charter Tools training to be conducted via webinar (date TBD). It is *strongly* encouraged that all applicants participate in the webinar to ensure that all submissions are made correctly, completely, and on time.

Section 6: Program Overview (4 Pages)

The Program Overview should:

1. Describe how the applicant will "provide a program of basic education that meets the goals in RCW 28A.150.210, including instruction in the essential academic learning requirements and participates in the statewide student assessment system;"

2. Provide the Educational Program Terms, which are the essential design elements of the school model;

4. Describe how it will increase educational equity;
5. Highlight the aspects of the program that will promote agency;
6. Highlight the culturally responsive aspects of the program.

The Educational Program Terms identify the essential components of the educational program that the applicant considers critical to the school's success *and* for which the applicant is prepared to be held accountable to Spokane Public Schools and the public. The district's oversight and evaluation of the proposed school's educational program will focus on successful implementation of the program's design elements and educational program terms. **Applicants should identify no fewer than three and no more than five Educational Program Terms.**

The Educational Program Terms should be *minimum* expectations. Applicants need not – and should not – include all of the things that they want the school to be. Rather, applicants should include a set of minimum measurable programmatic components that will enable SPS to objectively validate that the program the proposed school is offering is fundamentally consistent with what the school is advertised to be.

Articulate the Educational Program Terms in a way so that objective measurable evidence that can be used to determine whether the proposed school has met the expectations. Avoid general statements about the school culture or learning environment. **Focus on specific, measurable components** that will establish that culture or learning environment.

The Educational Program Terms will become an attachment to the charter contract. It will not replace the district's ultimate focus on performance standards set out in the Academic Performance Framework.

Note: The Educational Program Terms are different from school-specific goals (Section 23) that the proposed school must develop as a part of its Academic Performance Framework, because Educational Program Terms focus on process rather than student outcomes. In other words, the school-specific academic performance goals focus on what students will achieve. By contrast, the Educational Program Terms should capture the essentials of what students will experience.

Section 7: Curriculum and Instructional Design (12 Pages)

Propose a framework for instructional design that both reflects the needs of the anticipated population and ensures that all students will meet or exceed the state standards.

1. Describe the basic learning environment (e.g., classroom-based, independent study) including class size and structure. Demonstrate alignment to the school’s mission, vision, and culture. Include in the description how the learning environment and pedagogy is culturally responsive.

Describe the evidence that these curricula will be appropriate and effective for the anticipated student population. Describe how the curriculum is vertically and horizontally aligned for all grades the school will serve. Include a description of how the school developed a curriculum that is culturally responsive and free of bias (i.e. racial, gender, etc.). If the curriculum is not developed, use Attachment 6 to provide a curriculum development plan.
4. Describe the primary instructional strategies that the school will expect teachers to use, how these strategies are culturally responsive, why they are well-suited for the anticipated student population, and how they will promote student agency and increase educational equity.
5. Describe the processes, methods and systems teachers will have for providing differentiated instruction. Describe how teachers will be empowered to meet the needs of all students.
6. Describe how the school will accelerate the learning of those students who are entering with skills below grade level or who are not meeting growth and/or proficiency standards. This includes, but is not limited to specific interventions designed to accelerate student learning.
7. If the school will employ a specific Social-Emotional Learning (SEL) curriculum for all students, include a description of the chosen curriculum (or a description of how one will be developed), how the curriculum will be presented alongside or independent of other curricular choices for core subjects, and how the SEL curriculum is proven to be inclusive and effective with the school’s anticipated student population including those defined as at-risk.

Attachment 5: A sample course scope and sequence for one subject in one grade of each division (elementary, middle, high school) the school will serve, if know. If unknown see below.

Attachment 6: If the curriculum is not already developed, provide a plan for how the curriculum will be developed between approval of the application and the opening of the school, including who will be responsible and when key stages will be completed. Describe how the curriculum will be vertically and horizontally aligned for all grades the school will serve; and how the curriculum will be appropriate and effective for the anticipated student population. Include a description of how the school will develop a curriculum that is culturally responsive and free of bias (i.e. racial, gender, etc.).

Section 8: Student Performance Standards (5 Pages)

Responses to the following items regarding the proposed school's student performance standards must be consistent with Washington State K-12 Learning Standards.

3. Explain the school's policies and standards for grade promotion and grade retention (holding students back).
4. Describe how and when, performance standards, and grade promotion/retention criteria will be communicated in a culturally competent manner to families and students.

Attachment 7: The school's exit standards for graduating students or students completing the last grade in that school. These exit standards should clearly set forth what students in the last grade served will know and be able to do, and meet or exceed all state grade level expectations. If the school plans to adopt additional exit standards beyond those required by the state, those should also be included.

Section 9: High School Grad Requirements (High Schools Only) (2 Pages)

High schools will be expected to meet the state graduation standards as established by the Washington State Board of Education (SBE).

1. Explain how students will earn credit hours, how grade-point averages will be calculated, what information will be on transcripts, and what elective courses will be offered. If graduation requirements for the school will exceed state standards, explain the additional requirements.
2. Explain how the graduation requirements will ensure student readiness for college or other postsecondary opportunities (e.g. trade school, military service, or entering the workforce).
3. Explain the systems and structures the school will implement for students at risk of not meeting the proposed graduation requirements

Section 10: Supplemental Programming (2 Pages)

1. If summer school will be offered, describe the program(s). Explain the schedule and length of the program, including the number of hours, days and weeks. Provide a description of the anticipated

participants, including number of students and the methods used to identify them. Describe the anticipated resource and staffing needs for these programs and how they will be funded. Address the processes for determining attendance when student interest/need exceeds capacity.

2. Describe any extra-curricular, co-curricular, or other student-focused activities or programming the school will offer, including how often they will occur, how they will be culturally responsive, how students can participate in the development and implementation of such activities and programming, and how they will be delivered and funded. Address the process when student interest in the program exceeds capacity. Applicant must describe how the school will pay for student participation in district sponsored interscholastic programs.

Note: Extracurricular activities may be offered or coordinated by a school, but may not be explicitly connected to academic learning (sports teams or student clubs). Co-curricular activities are an extension of the formal learning experiences in a course or academic program (science fair or learning exhibitions if they are not formally graded or credited).

3. Describe the plan for outreach to Families to apprise them of supplemental programming opportunities. Describe how this plan will be inclusive.

Section 11: Special Populations and At-Risk Students (13 Pages)

Charter schools are responsible for serving students with special needs, including, but not limited to, students with IEPs and Section 504 plans, ELLs, students identified as highly capable, and students at risk of academic failure or dropping out. Schools are responsible for hiring licensed and endorsed professionals pursuant to federal and state law to meet the needs of students. The District will not withhold materials from disclosure simply because you take the position that they are exempt. Instead, the District reserves the right to make its own determinations as to exemptions.

If the District receives a public disclosure request for any records you have specifically listed as exempt, the District may notify you of the request and, while not legally obligated to do so, may temporarily postpone disclosure in order to allow you to file a court injunction to prevent the District from releasing the records (reference RCW 42.56.540). If you fail to obtain a court order, the District may release the documents. By submitting a proposal, the proposer acknowledges the obligations herein and acknowledges that the District has no obligation or liability to the proposer if records are disclosed.

The District shall not be liable for any costs incurred by a proposer associated with the preparation of a proposal submitted in response to this RFP.
