The Community School

9th - 12th Project Based Learning

Choice

You have a choice when it comes to high school. TCS students engage in both collaborative and individual projects as they explore their interests and talents. By making learning relevant in this personal way, TCS helps students develop critical thinking, problem solving, and communication.

Follow your passion.

Culture

The culture at TCS is one of trust, respect, and responsibility. Students have the freedom to explore and grow in an accepting, safe environment. We have fun as we impact the world around us!

Take charge of your learning.

Connection

TCS students don't ask 'Why do I need to learn this?' because project based learning links them to real-world problems that need answers.

Make a difference.
